25 OCT 1958

Director of Security

A Uniform Clearance Program for Individuals Other Than Full-Time Federal Employees Who Require Access to U. S. Classified Information: Expansion of Recs. 2, 3, 4 and 6 of NSC 5512/1 to Include Full-Time Federal Employees

1. Returned herewith is the copy of the memorandum dated 25 October from the Executive Secretary, National Security Council, which forwarded a report pertaining to the subject matter.

2. The report forwarded with the memorandum of 25 October has been reviewed and is found to contain, from our point of view, only relatively minor revisions to the recommendations made in the original Brucker Report. You are aware, however, of the policy of the Director of Central Intelligence that the Agency will comply with the provisions of the Brucker Report only when our special security considerations permit. In view of this policy, it is not believed anything would be gained by the Office of Security addressing itself to these minor revisions.
